### PROFILE

I specialize in modern web technologies including Vue.js, Node.js, Laravel, and TypeScript. With expertise in both frontend and backend development, I create comprehensive solutions that deliver exceptional user experiences while maintaining clean, maintainable code architecture.

### WORK EXPERIENCE

#### DevSoftic

2024 - CONTINUE

#### As a Complete Frontend Developer

- Skilled Frontend Developer with extensive experience customizing advanced ERP systems such as Ultimate POS and Ultimate Inventory. Expert in crafting modern, responsive user interfaces and optimizing UI/UX to meet unique client requirements. Proven track record of improving system performance, usability, and maintaining consistent design across web platforms.

#### NextGen ERP

2022 - 2024

#### As a Frontend Developer

- Redesigned the complete frontend of NextGen ERP to deliver a modern, user-friendly interface. Focused on enhancing visual appeal, responsiveness, and overall user experience while maintaining functional integrity and performance.
